### Chicago Grain.

CHICAGO, Dec. 19—Decreased receipts in the Northwest formed the principal reason for a firm wheat market here today. At the close May wheat showed a gain of ½ cent. Corn is up ½ cent. Oats is unchanged. Provisions are up five to ten cents.

gain of 32 cent. Corn is up 32 cent. Oats is unchanged. Provisions are up five to ten cents.

The wheat market showed greatest strength soon after the opening. On a good demand from commission-houses, and local shorts sentiment at the start was builtsh. Initial quotations on May were up 15 to 32 cent at \$1.10503111. The main cause of the urgent demand was a sharp falling off in receipts in the Northwest. Another factor that entered into the situation, however, was a decrease in the amount on passage, together with a decrease in world's shipments. A noticeable feature of the statistics of the world's movement was the smallness of shipments from Russia. Advices from Minneapolis told of a good demand for cash wheat. With offerings light, prices advanced still further until May sold up to \$1.112. For a time the market held firm, the strength being apparently due to a searcity of offerings than to any great demand. Bullish reports concerning the condition of the wheat crop in Kansas helped to support prices. Late in the day sentiment became somewhat easier on profit-taking and on selling brought out by a considerable increase in the visible supply. The weekly report of a Cincinnati trade journal was also constructed as being slightly bearish. According to this authority, the snows and rains of the past week have afforded the wheat crop partial relief from the prevailing drouth. While the ground is still dry, existing conditions on the whole were claimed to be quite favorable. Afvalling drouth. While the ground is still dry, existing conditions on the whole were claimed to be quite favorable. After a reaction to \$1.05,03.105, the May option closed at \$1.11, a fairly firm undertone being manifested at the finish. Clearances of wheat and flour were equal to 100.250 bushels. The amount on passage decreased 2.80,000 bushels, while the visible supply increased 1.471,000 bushels, compared with 1.553,800 bushels a year ago. Minneapolls, Duluth and Chicago reported receipts of 781 cars, against 1182 cars—last week and 967 cars a year ago.

Considering the enormous total re-ceipts the corn market had a fairly firm tone the greater part of the day. May opened unchanged to ½ cent lower at

450/4514c, sold up to 45%@4514c, and closed at 454c. Local receipts were 1025 cars, four of contract grade.

A stendy tone prevailed in the oats market. May opened unchanged to 14c lower at 31%@134c, sold up to 314c, and closed at 31%@134c. Local receipts were 181 cars. Provisions were firm throughout the

New York Stock Letter.

James A. Pollock & Co., bankers and cokers, 6 West Second South street, fur-dish the following stock letter and gossip brokers, 6 West Second South street, furnish the following stock letter and gossip received over their private wire:

NEW YORK, Dec. 12.—Logan & Bryan Stock Letter—Market is closing irregular but with a good, firm undertone and very little change from Saturday's close; 51,960,060 has been taken for shipment to Europe, and it is rumored \$1,600,000 gold coin will be shipped this week to Buenos, Ayres. It has been a typical heliday market, with no significance in the trade. Wall street advices are uniformly buillish, particularly on the steel and coal stocks. Mency, both time and call, continues plentiful, indicating very little uncasiness of the new year. We continue to feel the underlying conditions are strong and improving, and believe they will, in the end, prevail and bring ultimately higher prices for stocks. In the meantime, however, we ook for an irregular market. It would be too much to expect a patient to sit up so soon after the severe shock the market has had.

New York—T. A. McIntyre & Co. Stock Letter—The speculation in the general stock market may now be said to have relapsed into holiday duliness incidentul to this senson of the year. We believe that any of the better class of stocks should be bought on any fresh bear drive, especially when the market is under an attack, such as those witnessed last week. If purchases of any of the good stocks are judiciously made on such occasions and held for a reasonable length of time, they will show fairly good profits; but we would only at me purchases on the weak spots at the present, with a view of selling out promptly on any bulge for a scalp, as we do not think we are going to have anything better than a scalpers' market

New York-Marshall, Spader & New York-Marshall. Spader & Co. Stock Letter-In a general way the list was well taken care of today. We believe that with the opening of the new year general confidence will be demonstrated in a most satisfactory way. The technical situation of the market is infinitely better as a result of recent liquidation.

New York-Dick Bros. Stock Letter—The market has been professional, narrow and sluggish today, showing turns of strength and weakness and closing with unimportant changes. Early gains were, as a rule, lost again in the late trading and most stocks closed heavy. The United States Steel stocks again were aggressively bought, but they sold off at the closing. Numerous specialities were marked up. The railroad list was not very active. Some good buying was seen in Pennsylvania, but the stock did not hold its gain. There was very little news. Money was unusually easy and sterling continued strong. The total transactions were smaller than for some time.

NEW YORK.—Walker Stock Letter-We do not look for any great activity un-til after the first of the year. The market however, should hold firmer and looks like

NEW YORK.—Hutton Stock Letter—Professional operations characterized to-day's market practically during the entiresession. There was no pressure to sell from any source, and probably the heaviest dealings in any one security was centered in the steels. It is said that Mr. Lawson's article will appear in his magazine tomorrow on this corporation, and plenty of mud slinging may be looked for However, theme stocks were bought during the entire session by bankers identified with these securities, and it is plausible that any attack by the Boston operator will be repulsed by the Continued heavy buying of recent date and that all offerings will be taken freely by those willing to sell. It is hardly to be expected that any great activity will be witnessed in the market until after the first of the year, but we do look for a gradual hardening of prices to this period and on any recessions good securities are a buy. NEW YORK.-Hutton Stock Letter

any recessions good securities are a buy.

NEW YORK.—Summary — American stocks in London weak, ¼ to ¾ below parity. Leather financing plan expected to meet with biliter opposition from large holders of preferred.

United States Steel needs more pig from than it can make. James R. Keene says he does not know Lawson, and will publish the only letter ever wrote him. Allowing for new fixed charges. Atchison will earn about 7½ per cent on common. London expects a continued German demand for gold, but no likelihood of an advance in bank rate this year.

Better prospects for adjustment of Fall River labor situation.
